PROFESSIONAL EXPERIENCE

Junior Software Engineer, *JoulesLabs* ⬈   Feb 2022 – Aug 2022 | Dhaka, Bangladesh
- Contributed to developing a SAAS application (ReviewXpo) on Shopify ecosystem from scratch.
- Worked in a team of UX/UI designers, backend and frontend developers and a project manager to meet project goals and created an effective user experience with digital products.
- Improved coding quality by building modular components and enhanced functionality by refactoring code and user experience of web applications.
- Implemented pixel-perfect and responsive design for extra large, large, medium, small and extra small devices.

Frontend Developer Intern, *Techsist Limited* ⬈   Oct 2021 – Jan 2022 | Dhaka, Bangladesh
- Worked with the initial team of 5 developers and developed frontend of 2 web applications using React.js, React Bootstrap, SASS, etc.
- Collaborated with teammates and updated application versions using Git.
- Worked in an agile, collaborative environment to receive design requirements, peer programs and test applications.
- Tested, debugged and deployed 1000s lines of code to the server.

PROJECTS

The Korean Mall, *Cosmetics E-commerce Website* ⬈
The Korean Mall is a renowned leading Korean cosmetics company in Bangladesh, reputedly dealing with various brands in this industry for more than 4 years and has outlets in two different locations in Dhaka city.

- Developed the client side, admin dashboard and backend using MERN technologies.
- Enhanced user experience and accomplished webpage objectives by creating site structure, navigation, page optimization, and graphics integration.
- Created user stories communicating with the client and team members.
- Conduct training for clients on handling website content management systems.
- Designed system and database with the help of other team members and provided API to the frontend developers
- Ensured maintainable folder structure and followed MVC pattern in the backend

Technologies: React.js, Redux, React Bootstrap, SASS, Node.js, Express.js, Mongoose and MongoDB

ReviewXpo, *Customer Feedback App for Shopify Merchants* ⬈
ReviewXpo is a **customer feedback SAAS application** for Shopify merchants. The merchants can collect authentic beautiful photo or video reviews and display them in their store in a wide array of widgets and display options by review request email.

- Worked on the client side dashboard using TypeScript, Next.js, Tailwind CSS, Storybook, etc.
- Developed the storefront widgets using Liquid (Template Language), Vanilla JavaScript, HTML, CSS, Babel, etc.
- Collaborated with teammates for writing user stories and database design.
- Designed modular functional components and built the initial design system using Storybook.
- Developed cross-browser/platform compatible design specs for complex page layouts while adhering to code standards.

Technologies: TypeScript, Next.js, Tailwind CSS, Storybook, Liquid (Template Language), Vanilla JavaScript, HTML, CSS, Babel, Shopify CLI, NPM, etc.
